

Wardrobe Audit*

Sorting out that bulging wardrobe often feels like a mountain that's hard to climb which is why having the help of an expert is a big advantage. Choose from either advised or fully guided sessions that take place face-to-face or virtually preferably in front of your wardrobe. We aim to declutter and organise your wardrobe and by using my expert eye, I will guide/advise/make suggestions on:

- How to audit your wardrobe in terms of identifying, what works and what doesn't
- How key items can be worn to maximise usage and produce a list of suggested additional wardrobe staples that may be needed to fill any gaps.
- How best to make your wardrobe work for you and offer lots of useful styling advice along the way.

Fully guided prep work is required prior to session and follow up advice handouts will also be offered – Be prepared to get everything out of your wardrobe ahead of the session and make sure you have some binbags to the ready!

To gain maximum benefit from this session, it is strongly advised that clients also consider investing in the **'Discover your Unique Signature Style' Package** which works as a fantastic precursor to this session (discounts apply).
